

SERIES 37

MURRAY AGRICULTURAL EQUIPMENT

PRODUCT INFORMATION

LEVELLING

Cover seed, level seedbeds and soils after clods have been reduced

TOP: Available in Kinked Tines only
 BOTTOM: Mount Arms

HEAVY DUTY SPRING TINE HARROW SERIES 37 - BUILT FOR TOUGH CONDITIONS

If you require Heavy Duty Spring Tines, Murray's Series 37 will complete any job with ease. Complementing scarifiers and chisel plows, it will break down cloddy ground and aid final seedbed preparation. Using larger 465mm (18'3/4") by 12mm Diameter tines with a 75mm (3") spacing, the Series 37 is put together using a heavier tine section frame. Available in a 3 Rank model, it is supplied with two mounting arms for each section. Two sizes are available – 1.83m (6') and 2.28m (7'6").

Experience the difference with our kinked tine designed to exert aggression in breaking down cloddy ground and final seedbed preparation.
